

## THE PEOPLE WE SERVE

**O'Tooles with 2 locations...** One of our oldest clients, O'Tooles bought the first flat panel televisions **AllStar** ever installed over a decade ago. In addition to nearly 100 TV's since then, we have integrated their DirecTV,<sup>®</sup> local cable, NYS Lotto, BuzzTime video gaming system and OTB racing content into one seamless system. We have also installed an audio system for daytime background music but with rich sound for the late evening crowd. Just a great example of how DirecTV<sup>®</sup> with NFL Sunday Ticket and other premium DirecTV<sup>®</sup> packages has created the ultimate sports bar destination in the area.

**CSX Transportation...**The main hub for all freight train traffic east of the Mississippi is in Selkirk, New York. In this facility, **AllStar** installed a complete corporate television system including the televisions in the Emergency Response Center, their in-house fitness center as well as video in many portions of the executive offices. Another great example of **AllStar** working at some of the most sensitive premises in NY where professionalism and attention to detail are required.

**The Point** bistro boasts a high quality multi zone audio system along with a few strategically placed TV's installed by **AllStar** to create a subtle video approach while maintaining the feel of a restaurant. Next door at Juniors is the sports bar owned by the same local team. Fully upgraded by **AllStar** recently with over 24 large televisions (including the bathrooms) all run by a master remote. This very robust system is easy to use and was engineered with all the equipment out of sight in the AV closet. With our digital signage and custom house content channels, the owners can promote their daily specials and upcoming events easily on any of their panels at any time giving the maximum return on their AV investment.
