

## THE PEOPLE WE SERVE

**Brickhouse Brewery**...in Corning operates in a location that has been a popular bar for over forty years. Formerly *That Other Place*, Brickhouse has taken craft beer and delicious

pub food to another level in the Southern Tier. This local hotspot now also supports local and nationally-known bands/artists with live music on the weekends. We were called in to provide the full video experience with large flat panels featuring top sports packages from DirecTV® and a surveillance system designed to protect the owners investment at all times.

**Scale House Brewery**...has opened their second and much larger location in Hector. Their original location is in Ithaca. We provided a video experience featuring large flat panels complimented by the best sports programming from DirecTV.®

Our audio solution features multiple inputs to provide rich sound both inside and outdoors. Our commercial free music package, SonicTap, has over eighty channels to accommodate every genre and tempo of music for all hours of operation. Whether you're looking for a quality Craft Beer, or a one in a million Gourmet Pizza, or even if you're just looking for a relaxing spot with your friends with an amazing view of the lake check out the Scale House.

**The Waneta Inn**...has been a favorite with the locals for over sixty years. Fishermen, vacationers and those simply looking for a great fish fry or live music on Friday night feel right at home at the Waneta. The new owners have made a bunch of upgrades since taking over and wanted to protect their investment with a robust surveillance system. Secured in a lockbox to prevent tampering, our solution observes and records all the vital areas especially behind the bar to protect the liquor and cash drawer. We also provided a Direct TV® satellite system to bring in the local stations and popular sportschannels like YES and MSG.

## SOUTHERN TIER

Capt Morgan's  
The Woodhouse Zack's  
Grill
